SUMMARY

Computer Information Systems Graduate with hands-on experience in remote technical support, hardware/software troubleshooting, and embedded systems engineering. Currently supporting international customers in a startup environment across Windows and Linux platforms. Seeking a junior role in IT support, helpdesk, or cybersecurity where I can apply my technical foundation to solve real problems.

EDUCATION

UNIVERSITY OF THE FRASER VALLEY

Abbotsford, BC

Bachelor of Computer Information Systems

2025

Relevant Coursework: Data Analysis, Software Engineering, Operating Systems, Cybersecurity, Networking, Cloud Computing, CompTIA Network+ and A+ equivalencies

WORK EXPERIENCE

SYNTAXIS

Chilliwack, BC, Canada

Embedded Systems Engineer | Startup

Dec 2024 – Present

- Produced technical documentation including installation guides, troubleshooting procedures, and knowledge base articles to support end users and streamline issue resolution.
- Designed and developed embedded firmware from scratch in C++ and Python for Arduino and Raspberry Pi-based hardware products deployed to international customers.
- Provided remote technical support to international customers, triaging and resolving approximately 100+ hardware, firmware, driver, and OS compatibility incidents across Windows-based environments using RustDesk.
- Performed root-cause analysis on embedded system failures, reducing repeat escalations by identifying and documenting recurring failure patterns.

CANADIAN TIRE

Chilliwack, BC, Canada

Receiving Associate | Project Supervisor

Apr 2018 – Jan 2020 | May 2022 - Sep 2025

- Supervised a direct team of 5 and coordinated indirectly with 50+ staff during a store expansion and launch project, ensuring adherence to timelines and organizational standards.

CERTIFICATIONS

CompTIA

Issued: June 2026

Security+ (SY0-701)

Microsoft

Issued: July 2026

Azure Essentials Professional Certificate

SKILLS

Languages: Python, SQL, PowerShell, Bash, JavaScript, C++

Operating Systems: Windows 10/11 Administration, Linux Administration, macOS

Networking: TCP/IP, DNS, DHCP, VPN

Cybersecurity: Endpoint Security, Incident Response, Root-Cause Analysis

Tools & Platforms: RustDesk, Azure, Remote Support & Troubleshooting, Configuration Management

Hardware: Raspberry Pi, Microcontrollers, Embedded Systems, 3D Printing
